

November 12, 2013

Dear Members of Congress:

As hunger-relief charities across the nation, we strongly urge you to protect SNAP and increase TEFAP commodity support as Congress works on conference farm bill legislation in the months ahead.

We are on the front lines of our nation's fight against hunger. We see every day how important farm bill nutrition programs are in our community and how effectively they are working to ensure that struggling Americans can provide enough food for their families. As the aftermath of the recession continues to impact communities across the United States, the need for food assistance remains high.

At the same time, food banks, pantries, and other charitable organizations are seeing declines in food through the Emergency Food Assistance Program (TEFAP). Historically, TEFAP foods made up about 28 percent of the food distributed by the Feeding America network of food banks. But by 2012, TEFAP foods had declined to only 17 percent of distribution. Through TEFAP, the US Department of Agriculture provides food banks with nutritious, shelf stable foods that are the cornerstone of the food our network distributes.

In addition to helping food insecure Americans, TEFAP also helps American farmers through USDA purchases of American commodities to distribute through food banks. Unfortunately, USDA has not made as many bonus commodity purchases in FY2013, and the Feeding America network is extremely concerned that we will not have enough USDA commodities to help meet demand this year. We need your help to ensure that the Farm Bill provides an additional \$300 million in TEFAP funding.

The struggles that hunger-relief charities face in meeting existing levels of need also strongly underscores the urgency of protecting the Supplemental Nutrition Assistance Program (SNAP) from funding cuts and harmful policy changes. Cuts to SNAP would increase hardship among food insecure households and shift demand to charities as millions of participants are eliminated from SNAP or see their food assistance cut.

Under the House bill, nearly 4 million individuals would lose SNAP benefits entirely, 850,000 households would lose an average \$90 per month in food assistance, and 210,000 children would lose free school meals. The bill would also place time limits on SNAP participation and incentivize states to cut caseloads at a time when jobs remain scarce. SNAP participants will already have their benefits cut starting this November, when a family of four will lose \$36 per month from their maximum benefits, a loss of \$432 over the course of the year.

Together, the proposed and scheduled SNAP cuts for 2014 would exceed the total number of meals distributed annually by Feeding America's entire national network. With charities already struggling to keep up with existing need, we cannot possibly make up the difference if SNAP were cut.

While we recognize the challenges of enacting fiscally responsible legislation, we are confident that even in a time of limited resources, our nation can make decisions that reflect our shared value of helping our neighbors in need. We urge you to work with your colleagues on the conference committee to protect SNAP and strengthen TEFAP. In the meantime, we invite you to visit a local food bank to see for yourself how important TEFAP and SNAP are to your constituents and how well they work in our communities.

Sincerely,
