

Q.59 As you may know, California recently passed a law that bans disposable plastic grocery bags throughout the state. It also requires supermarkets and grocery stores to offer paper or other reusable bags for at least 10 cents per bag.

Do you support or oppose this law?

Q.60 Now let me read you two statements about this law.

(OPPOSE BAN) Some people say the plastic bag ban puts a hidden tax on people at a time when California's economy is still struggling. It could cost California jobs, and is just more government regulation and overreach.

(SUPPORT BAN) Other people say the plastic bag ban will reduce pollution and protect wildlife, the environment, and people's health. They say that plastic bags are made with petrochemicals and can harm our streams, rivers, and oceans.

Q.61 As you may have heard, some people are trying to bring the law up for a public vote in California. If there were an election held today, would you vote YES to uphold the law or NO to overturn the law?
